EXPERIENCE

FRAGRANCE SALES ASSOCIEATE

CHRISTIAN DIOR PARFUMS, ARMANI, BULGARI, GYVENCHY & KENZO

2017-2020

I was working in the sales sector, carrying out the weekly objectives to be met, as well as the accounting of the products that were sold. It was essential for me to use my linguistic skills especially arabic and spanish, my capacity for expressiveness and conviction, to obtain the highest number of sales.

Knowing the needs of customers and being able to satisfy them was one of the main requirements, which is why the extensive knowledge of the sector and problem solving was a very useful tool.

MATHS TEACHER

FREELANCE

2016-2018

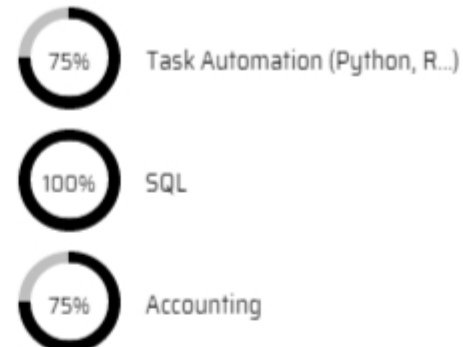

I taught kids among 16-18 years old. I provided them with a personalized set of exercises that I would prepare based on previous study I had to go through to know the details of topics such as: Advanced Calculus, Linear Algebra and general problem solving techniques. I applied real world examples in order for them to see the need of knowing each of the latter mentioned topics as something worth remembering.
